To whom it may concern,

**RE: CHB Painting and Decorating Pty Ltd  
Subcontractor Performance**

Over the past two years CHB Painting and Decorating Pty Ltd (CHB) have undertaken subcontract works under the Queensland Infrastructure Division of Thiess Pty Ltd in excess of AU\$700,000. The projects on which CHB have involved with included the significant Hinze Dam Stage 3 Upgrade which was valued in excess of \$350M during which CHB's scope of works included but was not limited to the extensive rehabilitation of the existing pipeline and valve systems that formed parts of the Hinze Dam's Lower and Upper Intake Towers and Pump Station.

At all times CHB representatives co-operated and co-ordinated closely with site personnel executed the works to a very high standard in terms of safety, quality and value for money.

I have no hesitation in recommending CHB for any aspects of industrial painting. Should you require additional information as to the performance of CHB please do not hesitate to contact me on the mobile number below.

Yours sincerely,  
Thiess Pty Ltd
